The Authority operates as a seasonal tourism business similar to those found in the private sector. Cash flow concerns are paramount, these funds are needed to cover major maintenance projects, the future development of the Museum, to operate during the off-peak fall and winter months and to cover potential short falls in operations that can occur that are beyond the control of staff such as hurricanes or mandatory evacuations for hurricanes. Section 51-13-765 of the SC Code of Laws states that the Authority may retain and carry over these funds it has on account from fiscal year to fiscal year and that all earnings and interest accrued on accounts held by the Authority must be retained and expended by the Authority to carry out its purpose and mission.
